On March 22, 2013, Delmarva Power & Light Company ("Delmarva" or the "Company") filed with the Delaware Public Service Commission (the "Commission") an Application seeking

approval of an increase in its electric base rates and miscellaneous tariff changes. The Application has been docketed as Docket No. 13-115. In its Application, Delmarva seeks an increase in annual operating revenues of \$42,044,000, or 7.38% over existing rates. The Company cites several reasons for its request, the most significant being the need to invest approximately \$397 million in its electric distribution system over the next five (5) years. According to the Company, this investment is needed to maintain and enhance system reliability, for infrastructure replacement, and to improve the Company's response to major storms.
